10% tournament entry (66% Agree) - Passed

~~Tournament Advertising (44% Agree) – Not passed~~

**Director Expiration:** 1 Year

**Voting Method:** Google Forms

**Voting Date and Format:** To be determined – technical problem with survey.

## **What other chess-related goals would you like to accomplish?**

- Increase the participation of girls. A couple of girls only tournaments each year.
- Teaching, lessons/lectures at different clubs, online or in person; developing training material. Dedicated website for members to attend to. Coordination of tournaments across all clubs and some level of standardization and/or best practices implemented among the clubs. Perhaps a quarterly newsletter, just 1 page is sufficient. Improving local partnerships (improving culture of chess in a city), playing chess at different areas in a city or having events.

## **Comments/questions/concerns?**

- Overall expansion of Chess in Saskatchewan, working with Scholastic
- Develop chess in Prince Albert and area
- We should try to encourage females to play chess, this is an area where SK could excel rapidly with minimal effort.
- Goals are pretty much covered in questions. I would say a concerted effort for publicity of the federation and its activities would help.
